## FM WIRELESS MICROPHONE SYSTEM MODEL WX-8010

The unique all transistorized FM Wireless Microphone from Concord gives you the complete portability and freedom of operation which is highly desirable of a microphone system. The Concord Wireless Microphone allows complete mobility and freedom of movement with no trailing wires underfoot.

The Concord Wireless Microphone System is ideally suited for working with charts and graphs in an auditorium, audience participa-

tion, interviewing, outdoor events, auctioneers, plus many more.

The entire system consists of a small completely transistorized battery operated FM wireless microphone which transmits your voice over an FM channel to the Concord FM receiver/amplifier.
